COVID FAQ

Before Christmas, the BBC Asian Network produced a series of tweets answering commonly asked questions around COVID vaccines. The English version features Divya Chadha Manek, Head of Commercial Business Development and Marketing at the national CRN and Clinical Trials Workstream Lead at the UK Vaccine Taskforce, with several other translations tweeted (usually featuring GPs).

Please disseminate these tweets to whoever you feel appropriate. Links as follows:

PLEASE SEE FURTHER DOWN FOR INFORMATION REGARDING SUPPORTED BROWSERS.

About twitter.com supported browsers

We officially support versions of the following browsers from the past year on twitter.com:

- Edge (https://microsoft.com/edge)

- Safari (https://www.apple.com/safari)

- Chrome (https://www.google.com/chrome)

- Firefox (https://www.mozilla.org/firefox)

- Any browser based on Webkit / Chromium engines (Opera, Samsung Internet, UCBrowser, etc.)

If you use Twitter on an older version of the above browsers, browsers not listed, or a browser extension which modifies your user agent, you may be redirected to an older version of Twitter, or be unable to use Twitter. In order to ensure the best possible Twitter experience, including all the latest features and security updates, please make sure your browser and operating system are up-to-date.

Please note that compatible browsers are included with most operating systems:

Please note that compatible browsers are included with most operating systems:

- Windows 10 - Edge

- Android - Chrome

- MacOS / iOS - Safari
